

I am very concerned about the possible loss of an FM radio station that my family and friends love and enjoy so much. Please do not allow K-LOVE to be displaced by an LPFM broadcaster. This is one of very few positive, family-friendly broadcasts our community receives. This station provides so much to our community. An example is my 37 year-old developmentally disabled daughter, she listens to Adventures in Odyssey every day and it gives her so much. K-Love is the kind of station that serves the public in so many ways, including community announcements, great music, help for those who are troubled in different areas from drugs to mental health. I know of no other station of it's type in our area. Please make sure we do not lose this great station.

Sincerely,

Colleen S. white
